

Please do NOT adopt a national standard regarding Telephone Privacy. I am a citizen consumer of the State of Indiana, which has an EFFECTIVE (for the citizen consumer) policy. I do not welcome, nor appreciate, unsolicited sales calls, or worse yet, messages left on my answering machine. Since I signed up in October 2002, I have been a much happier person. I appreciate you listening, but please reconsider this idea. Instead learn about Indiana's policy...and adopt that nationwide. Thanks.
